LinkedIn: **Julian HT** | Github: **JulianTymeczko** | Portfolio: **My Portfolio**

Results-driven web developer with a focus on enhancing user experiences. Received a certificate from the Carleton University Fullstack Web Development Bootcamp put on by EDx. Self-motivated problem solver and collaborative team player.

Technical Skills

Languages/Libraries/Frameworks: HTML5, CSS3, SASS/SCSS, JavaScript ES6+, React, Material UI, Bootstrap, Node.js, PHP

Developer Tools/CMS: Git, JIRA, Wordpress, Agile Development, Figma, npm, yarn

Experience

Frontend Developer - Urban Tech Hero   **December - Present**

- Worked with fellow developers and designers to create a full-stack application
- Accelerated the collaborative effort within a non-profit organisation to spearhead the development of a prototype.

Portfolio Samples

Audiophile   Live Link: **Audiophile**

- Tools: HTML5, CSS3, JavaScript ES6+, React, Git
- Developed an e-commerce store from the ground up, employing pure CSS. This responsive web application seamlessly translates Figma designs into a pixel-perfect interface, ensuring a flawless and captivating user experience.
- The project showcases proficiency in front-end web development, emphasising attention to detail in crafting an intuitive checkout flow and multiple pages.

Arch Studio Website   Live Link: **Arch Studio Website**

- Tools: HTML5, CSS3, JavaScript ES6+, LeafletJs, Git
- Converted Figma designs into a responsive multi-page website. Delivered a visually stunning and user-friendly digital experience across four pages.

Education

Carleton University Full Stack Web Development Certificate   **October 2023**

- Gained experience using web development technologies and actively engaged in collaborative team projects.
